

BABY K'TAN[®]

sizing information

Use the below chart to determine your Baby K'tan sizing. The Baby K'tan is sized to fit the adult who will be carrying the child. Age or weight of child is not a factor.

what size should I get ?

	XS	S	M	L	XL
 dress	0-4	6-8	10-12	14-16	18-22
 suit		up to 38	39-42	43-46	47-50

If 5'2" or under, choose smaller size. If pregnant, base on pre-pregnancy sizes. The Baby K'tan is meant to fit snugly to allow for stretching. If the carrier feels a bit snug the first time you put it on, this does not necessarily mean it is too small.

additional sizing tips:

- If you fall in-between sizes or are 5'2" or shorter, CHOOSE SMALLER SIZE.
- If you are pregnant, use pre-pregnancy size to determine appropriate carrier size. Carrier size generally corresponds to pre-pregnancy fitted (tight) clothing size.
- When trying on the Baby K'tan Baby Carrier (without your child inside), the lowest point of the carrier should fall just below your chest and above your navel. When wearing your child in the carrier, the lowest point of the carrier may fall at your navel or waist, but should not fall below your hips.
- When carrying your child in the Baby K'tan Baby Carrier, if the lowest point of the carrier falls at or below your hips, choose a smaller size; if the lowest point of the carrier falls at your chest, choose a larger size.
- When carrying your child in the Baby K'tan Baby Carrier, if the carrier feels too loose (i.e., child feels insecure, legs are bumping child's body as you walk, or carrier easily slips off your shoulder), choose a smaller size.
- The size of the Baby K'tan Baby Carrier is not based upon your child's age or weight. The cross-stretch of the cotton knit fabric and the various carrying positions enables the carrier to grow with your child. Accordingly, you should not require a larger size as your child grows and develops from a baby to a toddler (up to 35 lbs).

The Baby K'tan Baby Carrier is made entirely of 100% cotton knit fabric and should fit snugly and securely on you and your child. If you are new to babywearing, you may think the Carrier is too small; however, a snug fit is optimal for securely carrying your child and for good back support and the cotton knit fabric enables the carrier to stretch to conform to you and your child.

It is important to us at Baby K'tan, LLC that you obtain a Baby K'tan; Baby Carrier with the optimal fit so that you and your baby are comfortable and secure. If you require assistance in choosing the proper size, a Baby K'tan customer care professional would be happy to assist you. Please call 866.YES.KTAN (866.937.5826) or email info@babyktan.com
